

The Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any similar article in the world. It makes more, better and more healthful food.

## THE CONFERENCE AT CHATTANOOGA

Secretary Jones, of the Chamber of Commerce, Tells of the Meeting and the Good Work Accomplished by Representative Men of the Southern States.

Great was the Southern Immigration and Quarantine Conference held at Chattanooga, Tenn., last week, great in its members great in its personnel; but greater still in its accomplishments.

Composed of three hundred and twenty-seven men from the cities, towns and hamlets of thirteen of the states of the Union south of the Chesapeake bay and the Ohio river and east of the western border of Louisiana—governors of states, United States senators, representatives in congress, mayors of towns and cities, county commissioners, bankers, merchants, farmers and representatives of commercial bodies—in a word, the political leaders, the statesmen, the brains of the productive world of the southland was represented at the conference, and constituted its personnel.

And its accomplishments?

A gathering of earnest men.

It would have been easy enough, far less laborious in fact than was its actual work, for the conference to have met and delivered itself of some meaningless metaphors in the shape of resolutions, some high sounding platitudes as its expressions of the south's needs in quarantine regulations and immigrations, and have adjourned for a frolic on the dizzy heights of Lookout hill or a day's junketing through the winding paths that mark one's way through the 8,000 acres of historic Chickamauga Park; but the Southern Immigration and Quarantine Conference was a gathering of earnest men for a purpose fraught with greater import to the south's progress and prosperity than anything which has occurred during the two decades last past. And SOMETHING was done.

After careful and painstaking deliberation by the two important committees of the conference, one on quarantine, the other on immigration, composed of two delegates on each committee from each state represented, the following resolutions were reported and adopted:

Health and Quarantine.

"Whereas, the experience of recent years, and especially the experience of this year, have demonstrated beyond cavil that the house mosquito, known as the *Stegomyia fasciata*, is the sole known cause of yellow fever epidemics and have demonstrated the futility and nuisance of many antiquated methods to quarantine hitherto resorted to, and the wisdom and necessity, in the interest of the public health and the public business, of uniform regulations to prevent the importation into the United States of yellow fever and its spread from state to state in the unfortunate event of its introduction; now, therefore, be it

Resolved, That we, delegates from

Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, Missouri, Maryland, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, hereby respectfully request the Senate and House of Representatives in Congress assembled to enact a law whereby coast-maritime and national frontier quarantine shall be placed exclusively under the control and jurisdiction of the United States government, acting in co-operation with the several State Boards of Health.

"We furthermore respectfully request that Congress shall make adequate appropriation to enforce and perfect the objects of this memorial and to stamp out as nearly as practicable the yellow fever-carrying mosquito in its breeding or living places in the United States, and by negotiating arrangements with the governments of Central and South America and the West India Islands, in places where said mosquito has its breeding places or exists in said countries;

"Resolved, second, That we urge upon the Legislatures of the several southern states that they enact quarantine regulations as nearly as possible in accord and conformity as hereafter enacted.

"We furthermore urge the governors of the said several states, with the above object specifically in view, to call the attention of the Legislatures of their respective states to the wisdom and policy of this course."

Immigration to the South.

"Whereas, the states represented in this convention, and the whole south, are possessed of limitless resources, agricultural, mineral and timber lands; and

"Whereas, desirable immigration is needed in order to develop these resources; and

"Whereas, we desire to settle with us all white persons who are willing to subscribe to our laws and who appreciate and love the genius of our institutions; now, therefore, be it

Resolved, That it is the sense of this conference that it does here by greet and welcome to our midst all industrious and upright persons from any of the European countries, and from all sections of the United States who wish to make their homes with us, to assist in the development of our resources and the advancement and multiplication of our varied enterprises and industries; be it further denounce as untrue and all rumors and slanders that may have been circulated to the effect that the south is unfavorable to honest and industrious white immigrants.

"Whereas, the president of the United States has recommended to Congress the passage of certain changes in the present immigration laws of this country with a view of

## LIGHT FROST NOTICEABLE SUNDAY

Which Was the First of the Season—Temperature Reached 43 Degrees.

The first frost of the season, although a light one, occurred Sunday morning. It was noticeable about 6 o'clock on several streets, particularly Garden and Chase streets.

The temperature also reached the lowest point of the season, dropping down to 43 degrees. Yesterday morning, however, was considerably warmer, rising to 54 degrees.

Weather Observer Reed issued a special bulletin Sunday morning, which was as follows:

"Light frost, the first of this season, was observed in Pensacola this morning. The deposit was particularly noticeable on West Garden and West Chase streets at 6 a. m., where the board walks showed white in scattered places.

"The minimum temperature this morning was 43 degrees.

"The first frost in the autumn of 1933 occurred on the morning of November 13, when the minimum thermometer registered 40 degrees. On the morning of November 12, 1934, the minimum temperature was 44 degrees and light rain was falling."

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn, of Boonsboro, Md., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. W. A. D'Alemberte, Druggist and Apothecary.

## CLOTHING IS NEEDED FOR THE WORTHY POOR

As the cold weather approaches numerous appeals are made to the Salvation Army for clothing of every description, and any article of this nature will be thankfully received and donors assured that it will be bestowed only upon the worthy poor. Clothing for women and children is especially needed. If those able to assist will notify Captain Norris, the officer in charge of the local Salvation Army post any articles donated will be gladly called for. 12nov

## ELECTRICAL SHOP.

I have established my Electrical Shop at 132 East Intendencia and will answer all calls for work or supplies from that place. E. W. PEAKE. 2nov2t.

## DR. C. RAY MITCHELL.

Will return to Pensacola and open his dental office Nov. 15.

making it more difficult for the pauper and criminal classes to enter our country, this recommendation embraces a better system of immigration both at the ports of embarkation and arrival; therefore, be it

"Resolved, by this conference of representative men of the south, That we hereby endorse and approve these recommendations and request all of the Senators and Representatives of the Southern States to aid in securing the passage of such amendments to existing immigration laws as will tend to obtain the objects sought.

"Resolved, That this convention recommends to each of the Southern States the establishment of an immigration bureau, to be maintained by appropriation."

The conference was called to order at ten o'clock on the morning of the 9th, instant, by Governor Cox of Tennessee, who was subsequently elected permanent chairman of the conference.

Florida's Representatives.

Florida's representation at the conference was as follows: Governor N. B. Broward, Hon. E. M. Hendry of Tampa, president of the state board of health, Hon. C. H. Bliss, mayor of Pensacola, Hon. H. E. Beunis, mayor of Green Cove Springs, Clark Knight of Tampa, M. V. Bailey of Jacksonville and W. C. Jones of Pensacola.

Pensacola was recognized and the Chamber of Commerce of Pensacola was honored by the conference in its selection of the secretary of the Chamber of Commerce, W. C. Jones, as the vice-chairman of the conference from Florida.

Florida's representatives on the two important committees of the conference were as follows: on quarantine, Mayor Bliss of Pensacola and Hon. E. M. Hendry of Tampa, on immigration, W. C. Jones of Pensacola and Clark Knight of Tampa.

A more prosperous and progressive city than Chattanooga does not exist in the south, and a more warm hearted, hospitable people than the citizens of East Tennessee's metropolis do not exist on the planet earth. There was nothing in Chattanooga too good for a delegate to The Southern Immigration and Quarantine Conference and absolutely nothing was overlooked by the local committees that could in the remotest degree have contributed to the comfort or pleasure of the delegates.

In its manufactures, in its mercantile establishments, in its geographical situation, in its citizenship Chattanooga as truly is a city par excellence.

W. C. JONES.

## Lungache,

pains in chest, bronchitis, and similar signs of a cold on the lungs, can be quickly relieved and cured by

## HAMLINS WIZARD OIL

No time should be lost, because lung trouble may easily develop into pneumonia or consumption. Hamlin's Wizard Oil, applied to the chest, relieves the pain and inflammation, loosens up the cough and soon cures the disease.

"My little girl," writes Rich. W. Thornton of Ouray, Colo., "suffered more or less with a cold on the lungs since her birth, and finally the trouble became serious. No remedies gave relief, until we tried Hamlin's Wizard Oil, one bottle of which permanently cured her." Price 50c and \$1.00.

Sold and recommended by

WHITE'S PHARMACY, Pensacola, Fla. Phone 180, Night Phone 446.

## COTTRELL'S Photograph Gallery Will Be Re-opened About Nov. 15.

## MALLORY VIEWS ON QUARANTINE REGULATION

(Continued From First Page.)

would have received my vote could I have amended it by striking out one very significant word.

The Resolution.

"The resolution reads as follows, viz: 'Be it resolved, That, we, delegates from Alabama, Arkansas, Florida, Georgia, Kentucky Louisiana, Mississippi, Missouri, Maryland, North Carolina, South Carolina, Tennessee, Virginia and West Virginia, hereby respectfully request the senate and house of representatives in congress assembled, to enact a law whereby coast-maritime and national frontier quarantine shall be placed exclusively under the control and jurisdiction of the United States government, and that matters of inter-state quarantine be placed under the control and jurisdiction of the United States government acting in co-operation with the several states boards of health.'

"I endeavored to get recognition in order to move to strike out the word 'exclusively,' but failed to do so, and the chair announced that the resolution was carried by a unanimous vote. As I was unwilling to appear to subscribe to the doctrine that congress by passing quarantine legislation can exclude the states from enacting any effective legislation to defend their people against infection or contagious disease, there was nothing left for me but to signify my dissent and my reason therefor.

"I am inclined to think that a bill putting maritime and frontier quarantine in the hands of the federal authorities will pass congress at the coming session, but I do not think congress will make such a bill a medium for the enunciation of an unbecomingly extreme doctrine as to its power to invade and nullify any reserved rights of the states. It will probably put the public health and marine hospital service in charge of quarantine at our ports; the quarantine system will be uniform; it will be proof against the annoyances or cajolements of local commercial interests and their exigent demands; and the states will without much friction acquiesce in the change. I expect to do what I can to secure such a result."

COMFORTING WORDS.

Many a Pensacola Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Pensacola readers.

A. Oerting, seaman, of 419 L street, tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten after stooping while the kidney secretions were irregular and unnatural. Doan's Kidney Pills procured at Sidney Kahn's drug store, No. 9 South Palafox street, cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agent for the United States.

Remember the name—Doan's—and take no other.

## REGULAR TRAINS NOW RUNNING AGAIN

Through Sleeper Started Yesterday and Mobile Train Goes on To-day.

Nearly all of the L. & N. trains are now running again as they were before the quarantine went on. The through sleeper from New Orleans to Jacksonville passed through yesterday morning, and the 7:15 Mobile local will be put on again this morning. The Florida train, leaving Pensacola at 4 p. m. will go on Thursday or Friday.

This will put Pensacola to feeling like herself again and will give a stimulus to business which will be welcome indeed.

The Exact Thing Required for Constipation.

"As a certain purgative and stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," says R. S. Webster & Co., Udonia, Ontario, Canada. For sale by all druggists.

## DEATH OF LITTLE GIRL YESTERDAY MORNING

Ira Belle Shuttleworth, the little daughter of J. G. Shuttleworth of East Romana street, expired yesterday morning at 5 o'clock, and the remains were placed at rest yesterday afternoon, many friends and acquaintances attending the funeral.

Death was due to congestion of the stomach, caused by partaking of too much ice cream which she had been given the night previous.

The little girl was in a weak condition, having recovered about a week since from a severe attack of yellow fever.

Herb. W. Edwards Injured.

Herb. W. Edwards of Des Moines, Iowa, got a fall on an icy walk last winter, spraining his wrist and bruising his knees. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed, but I rubbed them well with Chamberlain's Pain Balm and after a few applications all soreness had disappeared." For sale by all druggists.

## REMOVAL.

The Anchor Supply Co., has moved from the corner of Romana and Alcaniz to 112 E. Intendencia, in Commercial hotel building. Manager R. H. Vick will be pleased to meet his many friends and customers there. 14nov.

## Rice as a Food.

As an article of diet rice possesses the advantage of being the most easily digested (but one hour being required for perfect digestion) and most completely assimilated of the starch grains. For these reasons it becomes a valuable food for persons of sedentary habits. It is also rich in nutritive properties, being four times as nutritious as the potato and more uniform in quality. According to the views of modern chemists, rice contains a smaller amount of flesh forming substances and a larger amount of fat forming or heat producing substances than any other grain. Owing to the small quantity of gluten which it contains rice is capable by itself of only very imperfect fermentation and is therefore unfit for baking into bread.

The palatableness of rice, if not, indeed, its wholesomeness, depends largely upon the way it is cooked. The gummy preparation which passes muster on so many tables under the name of boiled rice is a sorry travesty upon this wholesome dish when it is properly cooked.—Table Talk.

## Everybody Should Sing.

A writer on singing says: "At the present era, when physical culture is a part of the curriculum of our most intellectual schools and is so generally regarded as a necessary element toward supplying and maintaining the sound body for the sound mind, it is worth while to consider a recent statement of eminent physicians that the mere exercise of singing is a great help toward the prevention, cure or amelioration of lung diseases. It was disclosed by statisticians in Italy some years ago that vocal artists are usually long lived and that brass instrument players, who bring their lungs and chest into unusual activity, have not had a consumptive victim among them. No matter how thin or weak the voice, young people should be encouraged to indulge in song. There could be no happier medicine, and if bearers sometimes suffer they should be encouraged to bear the infliction in view of the good it may do."

## Drying an Umbrella.

When you come in out of the rain don't plump your nice silk umbrella ferrule down into the umbrella stand unless you want to ruin it. That lets the water and tiny specks of grit run down into the lining under the iron ring that secures the ribs, and it stays there, making the silk tender and rots it. Neither should you leave the umbrella open to dry, as that stretches the silk and makes it stiff, and it will soon split. Shake it well, then close it and stand it handle down where the water will run off. Never set an umbrella or parasol away tightly folded. It will split out just as soon again. Leave the ribs to lie loosely.

## Over Half a Million SATISFIED CUSTOMERS

Do you think such an enormous business could be built up and continually increased, if our goods did not have exceptional value and merit? Do you think we could hold the trade of half a million people, if our reputation for doing exactly what we say wasn't firmly established? Do you think U. S. Senators, Foreign Ambassadors, Bankers, Business and Professional men in every section of this country would keep on using HAYNER WHISKEY if it wasn't all right? Do you think doctors would recommend it and hospitals use it, if it wasn't absolutely pure and unadulterated? Just think these things over carefully and then send us a trial order. Your money back if you are not satisfied.

United States Senate, Washington, D. C.  
"I have found Hayner Whiskey exceptionally fine for table and medicinal purposes."  
Wm. M. Stewart  
U. S. Senator from Nevada.

## HAYNER WHISKEY 4 FULL \$3.20 EXPRESS 4 QUARTS 3 PREPAID

OUR OFFER We will send you in a plain sealed case, with no marks to show contents, FOUR FULL QUART BOTTLES OF HAYNER PRIVATE STOCK WHISKY FOR \$3.20, and we will pay the express charges. Take it home and sample it, have your doctor test it—every bottle if you wish. Then if you don't find it just as we say and perfectly satisfactory, ship it back to us AT OUR EXPENSE and your \$3.20 will be promptly refunded. How could any offer be fairer? You don't risk a cent.

Orders for Ariz., Cal., Col., Idaho, Mont., Nev., N. Mex., Ore., Utah, Wash. or Wyo., must be on the basis of 4 Quarts for \$4.00 by Express Prepaid or \$5.00 Quarts for \$5.50, by Freight Prepaid.

## THE SLANDER IS REFUTED

CONCORDIA CLUB PASSES RESOLUTIONS CONDEMNING ARTICLE IN GERMAN PAPER.

The Concordia Club of this city has adopted the following resolutions, which refute the slanderous articles published lately in the leading paper of Germany, "The Berliner Tageblatt," at the regular meeting held Nov. 2, 1935:

Whereas, the attention of Concordia Club of Pensacola, Fla., has been called by the officials of the Louisville and Nashville Railroad to the following cablegram which lately appeared in "The Berliner Tageblatt": "New York, July 28, 1935.—(Private cablegram)—The immigration broke the record last year with 1,027,421 persons. Austria-Hungary has the largest number. Then follow Italy, Russia Great Britain and Scandinavia. The 'Morgen Journal' warns the Germans not to emigrate to the Southern States, as they are forced to work with revolvers and are treated worse than slaves."

Whereas, the "Morgen Journal" warning to German emigrants against settling in the Southern States because they would there be "forced to work with revolvers, and be treated worse than slaves," is a base and unfounded slander on our Southern States; and

Resolved, That a copy of these resolutions be spread on the record of our club, another sent for publication to each of the daily papers of our city and a special copy be sent to "The Berliner Tageblatt" with the request to give these resolutions the same prominence in their paper which they accorded to the cablegram of the "New York Morgen Journal."
